Cosmic Ceilings**

Imagine yourself...

beneath a starry night sky on a clear warm Summer evening. High above you, the stars twinkle and shimmer like diamonds set in a deep-blue velvet sky.

The stresses of the day melt away, leaving you relaxed and at peace, as slowly you drift off to sleep, lost amidst the timeless wonders of space.

Well now you can enjoy this every night, and in the warmth and comfort of your own home.

Using specially developed Glow-in-the-dark paints, your Starglow FX Artist can create spectacular Cosmic Ceilings, for you and your children to enjoy for years to come.

During the day time, this amazing artwork disappears, so your ceiling looks the same as it always has. At night, it is magically transformed into a multi-coloured cosmic spectacle, with shooting stars, Milky-way, swirling gas clouds and colourful cosmic nebulae.
